## Work Experience

- Pay-U | Full Stack Engineer- Frontend Heavy** **September 2022 – Till Date**  
Built the Company's Admin Dashboard web application frontend with web development best practices | Transform app designs into code using React, CSS and others | Work with backend developers to integrate UI components with APIs and databases | Working with the Product Design Team to gather and refine specifications and requirements based on technical requirements of the UX design | Debug errors | Writing of quality scalable, and reusable code | Researching emerging technologies and industry possible new trends | Maintain legacy code written by other developers, including bug fixes | Integrate external software libraries and APIs into existing projects

- **VI Media and Digital Lab | Full Stack Developer**

**Jan. 2020 – Aug. 2022**

Built a market/shopping tracker app that allows users to input the items they intend to buy alongside with the proposed price. The app also allows users to compare prices after the shopping i.e. the proposed price versus the real price. Also, built an auto-mart e-commerce web app frontend for Client side, Admin side, and the backend for the app. It is an app where users can shop for their preferred cars or vehicles.

- **Assistant Laboratory Technologist and Administrative Officer**

**March 2016 – April 2017**

*Department of Petroleum and Natural Gas Engineering, Federal University of Petroleum Resources, Effurun, Delta State.*  
Engaged with documentation, practical class coordination, equipment maintenance and tutorial. Developed an efficient method of documenting.

- **Operational Manager | Goodness Cybercafe Ikere, Ekiti State.**

**Jan. 2015 – Feb. 2016**

Overseen the setting up of the cybercafé, supervision of the operations of the cybercafé towards smooth running. Developed teaching guide for trainees.

- **Students' Industrial Work Experience Scheme**

*Mac Engineering Quarry, Ikere, Ekiti State.*

**July 2014 – Dec. 2014**

Managed the mine and the mine operations such as drilling, blasting and haulage and crushing. Developed an improved formula for the estimate of total tonnage of granite aggregate blasted.

## Awards

Top Intern

React JS Top Intern

Side Hustle Internship,

## Education

February 2020

**M.ENG, Mining Engineering**

**(Mine Management and Mineral Economics Option),**

FEDERAL UNIVERSITY OF TECHNOLOGY, AKURE

Published over four international papers and two local papers.

Assisted in training and mentoring undergraduate students in their projects.

October 2015

**B.ENG, (Second Class Upper) Mining Engineering**

FEDERAL UNIVERSITY OF TECHNOLOGY, AKURE
